

Dr. S. K. Mehta, Fellow Royal Society of Chemistry (FRSC) is Vice Chancellor, University of Ladakh, UT-Ladakh and Professor at Department of Chemistry, Ex-Chairman, Chemistry, Ex-Director SAIF/CIL/UCIM, Ex-CRIKC and GIAN Coordinator, Panjab University, Chandigarh. He is among World's top 2% scientists declared by Stanford University. He is highly active in the significant areas of research like metallosurfactant chemistry, nano electrochemical sensors, synthesis and application of semiconducting nanoparticles, colloidal chemistry and nano drug delivery systems. He has more than 427 publications in international journals of repute with h-index of 63, Citation Index 12758, i10 269, two patents and is an author of about 28 books/chapters. He is recipient of renowned DAAD and JSPS fellowships, Bronze medal from *Chemical Research Society of India (CRSI)*, Authors award by Royal Society of Chemistry (UK), Haryana VigyanRatna award, Prof. W.U. Malik Memorial Award of Indian Council of Chemists (ICC) and STE award. He has been a visiting scientist to UK, Germany, Japan, USA and France and has guided 16 post-doctoral, 52 Ph.D. and 50 Master students and handled 20 Research projects.
